350 SUPER TECHNICS SA

Semi-automatic circular saw for heavy and professional duty: quick, easy to use and flexible

The ideal solution for profiles and solid metal cutting (construction steels and high alloys). The machine can receive a 350 mm diam. sawblade with Inverter to cover the most different applications. Automatic vice with anti-burr clamping included. One way miter from 0° to 45° with cutting head rotation. Mobile countervise guaranteeing greater cutting stability

Accessories

- Blade disc 350x2,5x32
