350 SUPER TECHNICS

Manual circular saw for heavy and professional duty: quick, easy to use and flexible.

The ideal solution for profiles and solid metal cutting (construction steel and high alloys). The machine can receive a 350 mm diam blade disc.

Available with 2 cutting speeds or Inverter to cover different application.

Manual quick locking vice with anti-burr clamping included. Two ways miter from 0° to 45° and longitudinal cutting with guaranteeing greater cutting stability

Accessories

- Blade disc 350x2,5x32
- Inverter
- Pneumatic vice
- Pedesta
